

Dear FCC,

I do not support the petition to require VRS interoperability because I am NOT frustrated with the different ways to call people on videophone. I am happy with Sorenson vp-100. High technology.. i am very pleased.. please tell CSD leave Sorenson alone.

It is very important to make everyone equally/. Freedom to choose.. no allowing other to control us.. we are very fortunate to hve that kind of service.

Thank you for this opportunity to make my comment.
